Mr and Mrs Herbert O Strong leave sunny Alberta March 7th for their home in Spokane. Mrs Strong has spent a very pleasant winter with her parents and friends and says although she likes Spokane, she has a big warm spot in her heart for Alberta and her friends here.

S Fisher says that it is all a mistake about his stallion, Sir Julian, having any disease. He has had several doctors out to his place and has had a government inspection, and finds that the report that was circulated was just to hurt his stallion's standing.

Our friend Simpson of Innisfail and Marshall of Olds and Stauffer of Didsbury voted with the government on that \$20,000 per mile deal and if we were to publish all the mean things that their respective districts are saying about them, especially some of those who voted for them, the Bowden News would be full to the muzzle. However, if there are any who wish to air their minds in this paper, and will sign their names to it, you may have space to 1000 words. As far as the editor is concerned, he is running an independent paper, and is recently from the States so is not in touch with the situation as well as we will be in a year or so. But, laying all jokes aside, why did not the government take Cushing's offer? He guaranteed to put \$500,000 cash as a guarantee that he could and would build the road in better shape than contracts called for, at the small sum of \$12000 per mile and the government guarantees the Alberta and great Waterways \$20,000. Why not let him build it. We people down at this end, who are from the States feel that if we can get something for \$12000 that is better, why inarnation pay \$20,000, for something that is not as good. If we are not mistaken, it will take a whole lot of our local members' time and soft words to explain to the dear people who intrusted their business in their hands to explain away this thushness. Of course, at the next election they will vote for the same old members—they have the habit.

Red Raven

A grand concert and dance was held in the Red Raven school on Mar 3rd in aid of the organ fund. A good program of songs, recitations, readings and dialogues were put on. The big nine choir from Dixon kindly assisted in the program which was a great success. After the program the ladies of the district supplied a good supper after which a vote of thanks was passed for the able manner in which the committee got up the concert. Those who wished indulged in dancing until an early hour. A good sum was realized which will enable the committee to purchase their new organ. Everybody went home feeling considerably better after their good time.

Who Will Succeed?

The Alberta government carried the A. and G. W. vote, as was expected but it got a more severe jolt than it looked for. Eight, or at most ten, were the maximums it had thought possible as opposition. Today there is need for only two or three more defections to bring its structure of power toppling to the ground.

There are many other reasons for criticism of the provincial administration in addition to its A. and G. W. folly. The purchase of the university grounds, the choice of the university site, the administration of the license law, the administration of public works as conducted by Mr. Cushing himself are all open to discussion. The elevation of a man like Duncan Marshall to the cabinet should be stigmatized as an insult to Alberta. The incompetence and greed of the premier are to be noticeable to be ignored. Mr. Buchanan should be asked why he supported the railway deal.

Yes, there are lots of things to talk about. The interest of the session has just begun and the likelihood is that its end may see a new government on the eve of office.

Unless the Conservative party get busy the new government will be as much Liberal as the old one. Every evidence points to the present situation as having been largely brought about by a big row within the Liberal ranks. Hon. Frank Oliver heading one side and the provincial leaders the other. It is an internecine quarrel and a bitter one at that. The insurgents have adopted the principals and criticisms of the Conservative opposition. So far the country has gained by the exposure of an iniquitous deal. It remains to be seen whether the Conservative party will gain by the quarrel that has divided its opponents into two camps or whether, having permitted one of the contestants to steal its clothes, it will be content to remain shivering in the cold shades of opposition while two sets of Liberals fight for the seats of power.—Daily Herald Calgary.

Is your farm for sale?

For if it is I may have a buyer who is just suited with description and terms of your farm. I have over TWO HUNDRED letters from readers of the several papers I publish, and from friends, in the states, who are planning on coming to Alberta and to this section of the country. You had better write me fully what you will sell your farm for, terms, full description of land, etc. and the very best cash price—everything will be strictly confidential. To the one who desires a farm like yours I will forward a copy of your letter. In this way he will have a chance to select his home before he comes up here and once a buyer makes up his mind to see or buy a certain farm its hard to sidetrack them. I want farms from all the districts within 75 miles in all directions of Bowden, and especially in the Acme, Carbon, Three Hills, Trochu, Curlew, Lake View, Olds, Innisfail, Bowden. Write me at once.

CHAPTER XVI.

FAITH FIGHTS A BATTLE AND "OVERCOMES."

Faith Kirk was having one of her great battles as she worked over that Sunday dinner. And she had not fought it out when the family returned, bringing with them four friends of Mr. Fulton, business acquaintances from other cities, whose good will it was necessary to keep.

The dinner was served promptly, and Faith had no reason to feel afraid of her success. Mrs. Fulton even came out into the kitchen when it was over and complimented her on the dinner.

The guests lighted cigars and retired to the library with Mr. Fulton. It was now nearly 4 o'clock. By the time everything was cleared away in the kitchen it was half past 4 and in the short winter day dark already.

Faith went up to her room tired and rebellious. She sat down and at first said she would not go to church. Then she thought of the dear home circle, and for almost the first time since she came away she grew dreadfully homesick.

She threw herself down on her bed in the dark and had a good, hard cry.

When it was over, she felt somewhat ashamed and lay still awhile, thinking. Then she rose and suddenly turned on her electric light.

"Faith Kirk, you are ashamed of yourself, is this Malcolm Kirk's daughter?" She asked the question as she put on her cloak and hat and resolutely determined to go to church and be a good Christian in spite of her troubles.

"To him that overcometh," the verse happened to be the subject of the Endeavor meeting that very night, and as she took up her Bible and went out of the house she was feeling better as she started down the avenue and then turned toward one of the churches of the same denomination as the one at home. For she was homesick enough to feel that she would enjoy the worship better in such a church.

Faith's Sundays in Chicago since she had been there were not at all like the Sundays at home. She had at first tried to attend a church near her boarding place. But at the end of her studio experience she had found some Sunday work to do in connection with one of the social settlements. That work was now too far away, and she was compelled to give it up.

Tonight, she said, she would go to the Endeavor meeting in the large church only a few blocks from Mrs. Fulton's. She had seen the notice on the outside of the building, giving 6 o'clock as the hour of service.

The young people held their meeting in the chapel or prayer meeting room adjoining the main room. It was beautifully lighted and furnished, and as Faith went in she was greeted at the door by a young woman, who gave her a topic card and a hymnbook and then showed her to a seat.

The meeting began promptly, and Faith could not help wondering a little as she looked around at the very well dressed young men and women how much any of them knew about the struggle of overcoming. The next moment she rebuked herself for judging others.

"They all have their trials no doubt," she said. "It won't do to judge from appearances. Rich folks are not the happiest ones."

She enjoyed the singing, and some of the more familiar Endeavor songs brought tears to her eyes.

When the hour was about half gone, Faith had an impulse to give her testimony. She kept saying to herself that what she had been through that day was something that might help the others. In her father's church at home the young people had always been encouraged to help one another by relating their experiences, and Faith had no other thought in mind when she rose during a pause and told very frankly something of her struggle that very day.

The young people all turned and looked at her in surprise. Faith knew how to express herself very well. Her father had helped her very much. She did not mean to exaggerate her difficulties, but she spoke more frankly than she might if she had not been overflowing from the day's experience. Besides, her heart warmed to find herself in the society once more, and she lounged for the Christian fellowship.

When she sat down, she had time to think if she had said anything she ought not. She had simply confessed her struggle as the Bible said Christians ought, and she had only incidentally mentioned the fact that she was working out. At home they had girls in the society who worked out at serv-

ice, and they did not think much about it.

But before the meeting was over she grew hot and cold by turns as she thought of having told all those young people that she was a "hired girl." She was almost tempted to get up again and tell them that she was the daughter of a minister and a high school

graduate and that her father had more than one letter from the pastor of the very church where she now was commending the work done in Conrad and asking for counsel as to similar work in the great city. Then she glowed with shame for her lack of courage. "If I did tell them what I am doing, it is no disgrace! It is an honest thing to do. I am not ashamed of it."

In spite of all that, when the meeting was over, Faith fancied that the girl who had been sitting next to her turned away very hurriedly without trying to speak to her. The one who had ushered her to her seat, however, came to her and introduced her to a girl standing near by. The girl shook hands rather stiffly and then excused herself, saying she had some committee work to do. Faith was left standing alone, and no one else spoke to her. She tried to believe that there was no intention in the neglect. But her face burned, and she finally resolved to go out, to shake the dust of that church from her feet and never return to it.

She had reached the door when the face of her father came up before her. The patient, loving, long suffering father at home, who had, to Faith's own knowledge, endured for years numberless privations and slights without losing his Christian manhood or courage. With the face of her father also came another, the Master's, as Faith remembered it from one of the pictures she had at home of Christ in Gethsemane.

"This is not overcoming," she said to herself, and at the door of the chapel she stopped, walked back to the church door entrance and went into the main room.

An usher showed her to a good seat, and she sat there with her head bowed for 15 minutes before the service began. When she raised her head, her eyes were wet with tears, and the people near her looked surprised. But Faith had overcome. She had fought another battle on that eventful Lord's day and had won the victory.

When the service began, she enjoyed it. The singing was by a quartet, and to Faith in her present condition the music came with refreshing. The sermon helped her too. It was on the subject of Christ's sufferings, and she felt ashamed as she listened and compared her own troubles with those of the great Sufferer for the sins of a whole world.

At the close of the service she hesitated, but finally went up to the front of the church and introduced herself to the minister.

He was one of the Chicago pastors who had known her father when he was in the seminary. They were not in the same class, but had corresponded a little of late years.

"What!" he exclaimed as Faith spoke her name. "Miss Kirk of Conrad! My dear," he called to his wife, who was near by, "this is Malcolm Kirk's daughter. You remember his stories in the papers. Our boys think there are no stories just like his. We are so glad to see you."

The minister's wife greeted her very kindly, and Faith almost cried, she was so touched by their cordial reception.

"Where are you stopping in the city?" the minister asked.

Faith hesitated and then frankly told him where she was and what she was doing. There was a moment's look of surprise on the faces of the minister and his wife, but they were genuine Christians, and without asking any more questions the minister's wife said as she laid a loving hand on Faith's arm:

"My dear, come and take tea with us next Sunday evening at 5. Don't fail, will you?"

She gave Faith their house number, and Faith walked out of the church feeling as if some Christianity were left in that great sinful city after all.

That night she wrote home a long letter to her mother, telling her all about her work and especially the experience of that day. When she finished, she prayed for blessing on all the dear home circle, and in greater peace of soul than she had known in a long time she committed herself to the care of the All Father.

As the week's work began again, the Fultons found themselves wondering how long the new girl's capabilities would hold out. Faith combined her father's physical endurance and her mother's New England thrift and neatness. Her kitchen shone with brightness. Her meals were delightful surprises to every member of the family. Her good nature seemed unending.

"We've got a real treasure," even Mrs. Fulton confessed Wednesday evening to her husband. "The only thing I dread is that she may not hold out. I have never been satisfied with any girl I ever had."

"Perhaps you expected too much," Mr. Fulton suggested, absently, as he continued to read his paper.

"I'm sure we pay enough to get satisfactory help," she replied. "If the capable American girls would only work out more we housekeepers would

not have so many trials." Mrs. Fulton sighed, but it is possible if she had changed places with Faith that Sunday she might have understood better why more American girls do not work out at service.

Thursday morning Mrs. Fulton went down to the city on some shopping, and Faith was alone in the house. She started her kitchen work early and then went into the parlor to sweep and dust.

The piano was open, and one of Sousa's new marches was on the rack where Alice had left it. She had been practicing it that morning before she went away to school.

Faith had received a good musical education from her mother. The piano at home had been one of the few expensive things that Dorothy had kept and taken with her when she left her home in the east. Faith was like her mother in having a real passion for music, and she had a more than ordinarily good ear, and her technique was almost professional.

She had not had an opportunity to touch a piano since leaving home. The sight of the open keyboard and the new music fascinated her. Gradually she neared the piano as she was dusting off the furniture, and finally she sat down on the stool and began dusting the keys.

The sound of the notes as her cloth pressed on the ivory, seemed to make her forget her surroundings.

She changed the dusting cloth to her left hand and struck a few chords with her right. The instrument was in fine tune, and before she knew what she was doing she had dropped her cloth on the floor and begun the opening measures of the march before her.

After a few attempts the music began to come to her. The march was not difficult, and she was fairly caught by its popular swing and rhythm. She forgot where she was and what she was, a "hired girl," who was not supposed to know anything about pianos.

She was conscious of some one in the room.

and marches. Her fingers seemed to regain their old nimbleness, and she was swept on into the piece with an enthusiasm and pleasure she had not known in a long time.

But just as she had finished the music with a splendid close and felt the glow of the effort she was conscious of some one in the room.

She turned around, with a face that burned, and saw standing at the entrance of the hall into the parlor three persons.

They were Mrs. Fulton, who stood staring at her with a cold, stern look; Alice, who seemed astonished at the performance, and the young man whom Mr. Fulton had addressed in front of the picture on State street as "Malcom." They had come in unexpectedly, and all three had evidently been standing there for some little time. There was an expressive silence in the parlor as Mrs. Fulton came a few steps into the room and confronted Faith, who still sat on the piano stool looking at her.

A TOUR OF THE ESCURIAL.

It requires about four days to make an investigation of the Escorial, the great Spanish palace, there being such a multitude of rooms and apartments. To travel all the halls, chambers, corridors, lengths and depths of the great palace would require a tour amounting to over a hundred miles.

Whist.

The game of whist has been traced by curious inquirers to the game of triumph or triumph or trump, which was extensively played in the early days of the sixteenth century.

A Curious Eating Custom.

The Dyaks divide in pairs when the hour arrives for taking food, the father and mother at one platter, two sisters at one and still two brothers at another. When the family is not equally divided as to sex a brother and sister may eat together, but this must always be the youngest and oldest of the family.

LA GRIPPE**Arrested, and Consumption Cured**

Mr. G. D. Colwell, of Walkerville, Ontario, was stricken down with La Grippe in 1906 and it left him in very bad condition. He says: I was all run down and bordering on Consumption. I could not sleep at nights, had awful sweats, and coughed nearly the whole time. This is how I was when I began to take Psychine, in a low nervous state; but from the first bottle I began to improve. It did marvels for me and brought me back to health in no time, making a new man of me. It fortifies the body against the attacks of La Grippe and is a sure preventative. I always take Psychine if I feel a cold coming on and it puts me right in no time.

TROCHU.

A large number of people assem-
bled in the Trochu school house on
Wednesday evening, Feb. 23rd., to
hear the debate on "Is the church
declining." The debate was one of
the most interesting of its kind
ever held in the district and con-
tributed largely towards one of the
most enjoyable evenings which the
Trochu literary and debating
society have yet arranged.

The collection at the meeting of
the Trochu literary and debating
society on Wednesday evening
amounted to \$7.15. The fund will
be devoted to the benefit of the
society.

M. E. Sherian recently purchas-
ed a fine lot of furniture in Calgary
for his new house. Come! come!
Mike, let us know the worst.

The next meeting of the Trochu
literary society will be held on
Wednesday evening, March 9, at 8
o'clock sharp. It bids fare to be
one of the best meetings that the
Society has yet held. The evening
will be devoted to the enactment of
a parliamentary sitting of the House
of Commons at Ottawa. Parliament
will assemble punctually at eight
o'clock. Having obtained the
speakers' sanction, the Rt. Hon.
C. I. Pearson, Leader of the Oppo-
sition, will introduce a motion of
drastic and far reaching proposals.
With one scratch of the pen he will
endeavor to shatter our protective
tariff and establish Free Trade.
The debate will not centre around
the old question of a high tariff or
a low tariff, it is to be a question
of a low tariff or no tariff at all—
Free Trade or Protection. Are we
going to admit goods free into
Canada or are we going to impose
a duty on them as we do to-day?

This week has been conspicuous
for the increased values of land in
the Trochu district. For the past
month the demand for land has
been very great and practically all
the C. P. R. land in the neighbor-
hood has been disposed of.

The Trochu Civilian Association
now possesses more than the re-
quired number of members, and
arrangements will soon be complet-
ed with the government for a full
supply of rifles and ammunition.

A range has not yet been select-
ed but the association's officials
have a good one in view. The range
when located, will be fitted with a
modern target of the most approv-
ed pattern and it has been rumored
that a telephonic apparatus will al-
so be installed. The association
promises to be one of the best or-
ganized and most up-to-date institu-
tion of its kind in the province.

Wm Bohning, accompanied by
C Hansen, J Nelson, E McClure,
O N Behrman, M Hansen, H O
Hansen, J E Goskill, J E Futy, N
Schermer, H Christensen and O
Groth arrived in Trochu last week
from Fairfield, Wash and intend
to settle in the Trochu district this
year. They all made large land pur-
chases in the neighborhood and
will farm on a big scale.

Mr Bohning returned to Wash-
ington with his party of friends
this week, but he will be back a-
gain at an early date with another
large party of land seekers.

C C White, C. P. R. Irrigated
land agent and R H Stepp of Cal-
gary were in Trochu this week on
business.

Building operations were comm-
enced last week on the stable for
the Trochu school.

A Grenville, O T Poch and P de
Beandrap were in Trochu this week
from the Red Deer river.

Geo H Cloakey made another
trip to Trochu this week.

INNISFAIR NOTES

Miss McDermott will have mill-
inery openings Tuesday and Wed-
nesday March 15-16th and follow-
ing days. You are cordially invited
to attend.

MILNERTON.

Quite a number of Milnerton's
young folks had an enjoyable time
at Mr. Laydens on Sunday, the oc-
casion being Miss Hilda's birthday.

Mr. W. D. Forrester is busy
drawing wood to Calder and Mount
Pleasant schools.

Wiss M. Berry is home from her
trip to Seattle, and we hope she
will remain a while.

We regret to hear that Mr. and
Mrs. Sarel are on the sick list
but hope they will soon be well
again.

F. Potter is still busy feeding
cattle. Quite a nice job on cold
days Frank.

Master Will Thurston met with
an accident on Thursday last being
kicked by a horse when he was
watering it but was not hurt very
bad.

A number of young people took
in the dance at the Horse Hill store
on Friday night. All report a good
time.

Mr. O Cook from Ont., is visit-
ing G. Calvert. Mr. Cook is intend-
ing to take up land.

Calder has been fortunate in
getting Miss Hall for a teacher, as
she is a splendid teacher.

J. J. Thurston is busy drawing grain
these days.

Call early and often at Perrins
Drug Store.

Notice to Gentlemen
Farmers.

Gentlemen I see that there is
only one way left for me to do
business, as there is no use of send-
ing out bills, so the way for me to
pay for my stock is to work for the
cash, so if I do any more work for
any one I expect the cash on
delivery of goods so this is the
final notice.

IN PAIN FOR YEARS "FRUIT-A-TIVES" BRINGS RELIEF

MRS. FRANK EATON

Frankville, Ont., Sept. 27, 1909.
"I suffered for years from headaches and pain in the back, and I consulted doctors and took every remedy obtainable without any relief. Then I began taking 'Fruit-a-tives', the famous fruit juice tablets, and this was the only medicine that ever did me any real good. I took several boxes altogether, and now I am entirely well of all my dreadful headaches and backaches."

People Eat Locusts

In many countries of the Far East people eat locusts. Locusts are dried in Arabia and ground into a sort of flour, used in baking. One tribe in Central Africa makes soup of the locusts. In Madagascar the insects are baked in jars, fried in a pan of grease and then cooked with rice. This is claimed to form a dainty dish.

There joined the police force of London a young Scotchman but recently arrived from his native land. Being detailed one day to block the traffic on a certain thoroughfare where members of royalty were expected to pass he was accosted by a lady hurrying to keep an appointment who thrust her head from the carriage window to remonstrate with him over the delay. "I canna let you pass, ma'am," answered the man of the baton. "But, sir, you do not know who I am. I am the wife of a cabinet minister." "It disna mak' na difference, ma'am," he answered. For Ellie J. Mirk, well known here, had Bright's Disease, and Dodd's Kidney Pills cured her.

"I suffered for over four years from Kidney Disease which developed into Bright's Disease," Miss Mirk states. "I had pains in head and back and stiffness of the joints. I lost my appetite and suffered from dizziness and shortness of breath. I was weak and languid all the time."

"I was always nervous and could not keep my thoughts from wandering. Dodd's Kidney Pills cured me. Today I have not one of these distressing symptoms."

Neglected Kidney Complaint develops into Bright's Disease, Heart Disease or Diabetes. Dodd's Kidney Pills cure any and all of these. But it's easier and safer to cure the earlier symptoms by using Dodd's Kidney Pills.

SOFT, WHITE HANDS

May be Obtained in One Night

For preserving the hands as well as for preventing redness, roughness, and chapping and imparting that velvety softness much desired by women Cuticura Soap and assisted by Cuticura Ointment, is believed to be superior to all other skin soaps. For those who work in corrosive liquids, or at occupations which tend to injure the hands, it is invaluable.

One Night Treatment.—Bathe and soak the hands on retiring in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment. Wear during the night old loose gloves, to protect the clothing from stain. For red, rough, and chapped hands, dry, fissured, itching, feverish palms, and shapeless nails with painful finger ends, this treatment is most effective.

"Oh, dear, Grace. George has just sent me the cutest and sweetest little alligator from Florida. Isn't he the dear?"

"He has? For goodness sake what have you done with it?"

"Oh, I hardly knew what to do with it, so I just put it in some Florida water and wrote to ask him." The sweet thing!

Impurities of the Blood Counteracted.—Impurities in the blood come from defects in the action of the liver. They are revealed by pimples and unsightly blotches on the skin. They must be treated inwardly, and for this purpose there is no more effective compound to be used than Parmelee's Vegetable Pills. They act directly on the liver and by setting up healthy processes have a beneficial effect upon the blood, so that impurities are eliminated.

HELP THE CHILDREN OUT

The trouble and annoyance which they cause you by their involuntary failings at night is not usually their fault, but the result of constitutional weakness. Write Mrs. Summers, Box 77, Windsor, Ont., and she will send free to any mother her successful home treatment, with full instructions. This treatment is effective also with adults and aged people who are troubled with the same weakness. Write today.

His Chance

Faultless in Preparation.—Unlike any other stomach regulator, Parmelee's Vegetable Pills are the result of long study of vegetable compounds calculated to stimulate the stomachic functions and maintain them at the normal condition. Years of use have proved their faultless character and established their excellent reputation. And this reputation they have maintained for years and will continue to maintain, for these pills must always stand at the head of the list of standard preparations.

WORTH KNOWING

Simple Remedy That Any One Can Prepare at Home

Most people are more or less subject to coughs and colds. A simple remedy that will break up a cold quickly and cure any cough that is curable is made by mixing two ounces of Glycerine, a half ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whiskey. You can get these in any good drug store and easily mix them in a large bottle. The mixture is highly recommended by the Leach Chemical Co., of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing.

A TERRIBLE SUFFERER FOR THREE YEARS

But Health Was Completely Restored by Dr. Williams' Pink Pills.

Extreme anguish: pains in the joints that all but drive one crazy—thus may inflammatory rheumatism be described. The victims are to be pitied—to them life is one long torture; they suffer by day and cannot sleep by night. Such was the condition of Miss Alida Mercier of Ottawa, Ont. For three years she was a victim of this trouble and found no relief till she began using Dr. Williams' Pink Pills. She says:—"For three years I was a sufferer from inflammatory rheumatism. During that time I consulted and was treated by some of the best doctors in our city, but I found no relief in their treatment. I began to despair of ever being well again, when one day a friend advised me to try Dr. Williams' Pink Pills. I procured three boxes and by the time these were used there was enough improvement in my condition to encourage me to continue their use. Three more boxes completely cured me and to-day I am as well as ever I was. I always keep a supply of Dr. Williams' Pink Pills in the house and would recommend all who suffer as I did to give them a trial."

It was the new blood that Dr. Williams' Pink Pills actually made that restored Miss Mercier to health and strength. There is no medicine to equal them in making new blood and in this way they cure anaemia, rheumatism, heart palpitation, indigestion, neuralgia, St. Vitus dance and many other troubles. Sold by all dealers in medicine or direct at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE SUNDAY SCHOOL

LESSON X.—FIRST QUARTER, FOR MARCH 6, 1910.

Text of the Lesson, Matt. viii, 2-17. Memory Verses, 2, 3—Golden Text, Matt. vii, 17—Commentary Prepared by Rev. D. M. Stearns.

Dr. Scofield says in his notes on these chapters that the King, having in chapters v-vii declared the principles of the kingdom, makes proof in chapters viii and ix of His power to banish from the earth the consequences of sin and to control the elements of nature. He also says that the word "Lord" in verse 2 is used 663 times in the New Testament as the divine title of Jesus the Christ, and is equivalent to the title "Adonai" in the Old Testament Matt. iii, 3; iv, 7, 10; xxii, 43, 45. In future when quoting from these notes from his new edition of the Bible I will give his initials, C. I. S.

In speaking of the kingdom the 81st says through the prophet, "The inhabitant shall not say I am sick; the people that dwell therein shall be forgiven their iniquity." "They shall obtain joy and gladness, and sorrow and sighing shall flee away" (Isa. xxxiii, 24; xxxv, 10). The kingdom of heaven, according to Dan. ii, 44, being at hand in the person and presence of the king, as declared by John the Baptist, Jesus Himself and the apostles (chapters iii, 2; iv, 17; x, 7), the King declares His power by a manifestation of several features of the kingdom. As we contemplate the righteousness of the kingdom as set forth in chapters v to vii and then the actual condition of things as they are about us in the world it is certainly a coming down to a much lower level, but it is to lift people up by the power of the King and His kingdom, and the multitudes are ready to hear of such a kingdom. Every form of physical suffering is suggestive of some disease of the soul, but nothing is quite so strikingly suggestive of sin as leprosy, which is so fully described in Lev. xiii and xiv. Sin is at the root of all our troubles. Can this man who in His teaching claims to be God do anything with leprosy? This leper believes that He can, but is not certain that He will. How the reply of Jesus must have filled him with an indescribable joy, "I will; be thou clean!" But these words came with the touch of Jesus, and with the touch and the words came the cleansing and the health immediately, and the outcast could return to his home and friends as a well man. That he may not think that his healer is in any sense contrary to the law of Moses he is told to show himself to the priest and offer the gift commanded. Well may we sing, "Unto Him that loveth us and hath washed us from our sins in His own blood."

His fame is spreading (are we helping to make Him known?), and now it is a centurion from Capernaum who has a servant sick of the palsy, grievously tormented. Luke, who was a physician, says that the man was ready to die, so that he must have been very sick. He also tells us that this servant was dear unto him and also that first of all the elders of the Jews came to Jesus on his behalf, saying that he loved the Jews and had built them a synagogue (Luke vii, 1-5). Jesus knew the centurion, as He knows all men and needs no testimony from any one concerning anybody (John ii, 24, 25), and He knew him to be a man with no thought of his own worthiness (verse 8 and Luke vii, 6, 7.). He said, "I will come and heal him," and He went with them. As He neared the house the centurion sent friends to say that he did not consider himself worthy to have Jesus enter under his roof; but, inasmuch as he knew what it meant to obey and be obeyed, if Jesus would only say the word he was sure that his servant would be healed. Jesus marvelled at the man and said to those who followed, "Verily I say unto you, I have not found so great faith; no, not in Israel" (verse 10). His word for the centurion was, "As thou hast believed, so be it done unto thee," and those who had been sent, returning to the house, found the servant whole. Such faith on the part of a gentile led the Lord Jesus to speak of the kingdom into which many gentiles from all the world will enter, while many who think they are entitled to the kingdom will be shut out by their unbelief.

The next instance of His power is in the house of Simon Peter, whose wife's mother is sick of a fever, but just the touch of His hand dispels the fever, and she is seen ministering unto them. Sin paralyzes our bodies or consumes them with burning, destroying desire, but He who takes away the result of sin by being made sin for us can also deliver from every manifestation of sin to the intent that we may minister unto Him. At even He cast out evil spirits from many with His word and healed all that were sick and thus fulfilled a word in Isaiah, "Himself took our infirmities and bare our sickness" (16, 17).

It is often asked, Is the health of the body included in the atonement? We reply that the same great sacrifice which takes away our sins makes us sure of a perfect body just like His risen body, which shall never again be weak or sick or old or die, but that will be in the kingdom. All of His power which is seen in bodies now is but a foretaste of that which will be fully seen when He comes.

"Is he an eloquent talker?"
"No, not exactly eloquent, but he can deliver a forceful speech if he has a table handy to pound now and then."

WHY CUSHING RESIGNED

LATE MINISTER OF PUBLIC WORKS MAKES STATEMENT

Gives His Reasons in House for Resigning from the Rutherford Administration—The Alberta & Great Waterways Railway Could Be Built for \$12,000 per Mile—Mr. Rutherford Makes Reply to Charges.

Edmonton.—Mr. Cushing made a clear explanation in the House of his reasons for resigning from the Rutherford Government. He began by saying that some few days ago it had been announced in the house that he had resigned from the cabinet, and he had received permission to make a statement regarding his action. With the indulgence of the members he proposed to make that statement now. Everybody prepared, and the silence was only broken by the page, who tipped toward him with a glass of water. Slowly and deliberately, as if feeling his way, Mr. Cushing commenced. He showed slight traces of nervousness, indicated only by one or two slight catches as if for breath, and clasping and unclasping of his fingers. But he kept himself well under control and as he felt his throat, which all along he had been afraid of wanting to go back on him, he warmed up to the work in hand, until, amid a burst of applause from his supporters, consisting of Glendinning, Hoadley, Michener, Riley, Holden, Puffer, Boyle and Warnock, he finished up by offering to put up a bond of half a million dollars that he can build the Alberta & Great Waterways railway, according to specifications submitted, at a cost of \$12,000 per mile, or with full equipment at a cost of \$16,000 per mile.

Mr. Rutherford said that according to parliamentary practice he was entitled to answer any member of the cabinet who may see fit to retire from his office.

"I shall proceed in my own way to answer the ex-minister of public works," he said. "A premier has to bear to a certain extent not only all his own sins of omission and commission, but the faults of the members of his cabinet and to a certain extent the sins of supporters. I say of the ex-minister of public works he has his faults and failings and also his good points. I have my faults and failings, and by the voice of the electors of this province I have my good points too." The premier then referred to the fact that Mr. Cushing assured him from time to time and could not deny it, that as long as he (premier) retained the management of railway affairs he felt that the province was safe and he was quite satisfied.

The premier then assured the house that the railway affairs had been carried on up to the present time in a business-like manner. He would endeavor to show this in the course of his observations to the satisfaction of the members of the legislature and people of the province. He then gave a brief history of the manner in which the railway policy has been handled by the government.

Arrangements were made by members of the cabinet, Mr. Cushing being present, for the Canadian Northern and G. T. P. to build branch lines, and the premier proceeded east in this connection in the end of 1918 to interview the Dominion government as to guaranteeing bonds to assist these companies. He read a copy of his letter to Mr. Cushing, sent on his return, showing his desire to let Mr. Cushing know what was going on in railway affairs.

He then referred to the specifications sent by Cushing on Oct. 7, together with his letter, the specifications being made out by Engineer Chalmers, and said that before he got through he hoped to be able to prove that the specifications of the Great Waterways railway were even better than those handed him by Cushing.

House of Lords to Reform Themselves
London.—The house of lords has decided to place its own plan of reform before the country.

At a recent session of the upper chamber, Lord Rosebery gave notice that he would move on March 14, that the house resolve itself into a committee of the whole to consider the best means of reforming the existing organization so as to constitute itself a strong and efficient second chamber.

By the date set by Lord Rosebery, the government's more drastic plans for the reform of the house of lords should be made known, though Premier Asquith told John Redmond today that he was unable to fix the date upon which he would present the government's proposal.

Another Comet Appears

London.—At a meeting of the British Astronomical association recently, Andrew Crommelin, assistant of the Greenwich observatory, announced the receipt of a telegram from Prof. P. P. duRoi, of the Geneva observatory, stating that he had discovered a new comet about one degree distant from Halley's comet, which was travelling many hundreds of miles a second faster than the latter. The new visitor will be known as Comet B 1910.

King is Opposed to Track Gambling

London.—Rev. Montague Fowler lecturing on the subject of racing and gambling quoted from a letter written by the king. "I have a horror of gambling, and I shall always do my utmost to discourage others who have an inclination for it, as the spirit of gambling is like intemperance, and is one of the greatest evils than can afflict the country."

G. T. P. WILL BE AT COAST IN 1912

C. N. R. Survey is Close to That of G. T. P. for 350 Miles West of Edmonton.

Montreal.—Mr. Jack Stewart of the contracting firm of Foley, Larson and Stewart has left for the west and although he would express no opinion it is expected that his firm will get the contract for the Gap, extending from the top of the Summit westward four hundred miles where the same firm's contract of 245 miles running up from Prince Rupert is met with.

To date five thousand men are engaged on the section of 320 miles west of Edmonton and on the 245 miles westward from the Pacific and a great many more will be put on during the coming summer.

The manager states that 1912 will see the road open for traffic through the mountains and enough is now known as to the situation through the pass, a distance of sixty miles, to justify Mr. Stewart's saying that there is room for 30 sets of rails. The most surprising part of his statement, however, is to the effect that the MacKenzie and Mann survey and absolute location fairly hugs the Grand Trunk Pacific from Edmonton westward, a distance of 350 miles. The two lines will be practically in sight of each other for all this distance.

B. C. Plans to Spend \$7,750,000

Victoria, B.C.—The estimates for the year were brought down in the British Columbia legislature recently. They show that the government intends to expend over \$7,750,000 this year as compared with an estimated expenditure of \$4,600,000 last year. While there are increased expenditures under all heads in line with the development of the country the greatest increase is under the head of roads, bridges and wharves, representing \$2,800,000 this year instead of \$1,480,000 last year.

According to the estimate there will be a deficit of over \$750,000 unless the estimated revenues are much increased in the actual developments. The largest increase in the revenues is expected from land sales which are estimated to give \$1,500,000 instead of \$750,000 last year.

Wants Improved News Service

Berlin.—The National Zeitung says Canada is prejudiced against Germany by English Imperialists and protectionists and asserts that Canada obtains all the news about Germany through English channels.

"This news is frequently misleading," it states, "and suggests that the attention of those incompetent quarters in Berlin might be directed towards organizing a scheme whereby Canada may receive German news direct from Germany."

The paper concludes by denouncing the Conservative newspapers in London as being prejudiced to an incredible degree and fears, along with many other German papers, that a satisfactory commercial treaty with Canada may even now not be secured.

Improvements in Annuities Act

Ottawa.—In the senate recently the second reading was given to Sir Richard Cartwright's bill amending the government annuities act. He explained that the amendment would not add to the expense of administering the act but it gave greater latitude in the sale of annuities to meet demands which had been found to exist. To the provision in the present act allowing the sale of annuities for the life of the purchaser was added power to sell an annuity for 20 years paid to the purchaser and his house. Another change raised the age at which annuities may be purchased from 80 to 85 years.

Premier Laurier Not Seriously Ill

Ottawa, Ont.—The alarming reports sent out in respect to Sir Wilfrid Laurier's health are without foundation. Sir Wilfrid has been suffering from a slight cold and from an attack of biliousness during the past few days and has on the advice of his physician remained at home so as to avoid worry and stress of his constant duties in the house. At the present juncture there is nothing that demands his attendance in the house during the weary progress of the naval debate and he will be in his place again in a few days, as soon as his presence is required.

To Study Eskimos

Copenhagen.—Knut Rasmussen, the explorer, is to sail in June for Greenland on an important expedition which will last four years. The purpose of the expedition is the ethnographic study of the Eskimos.

Captain Rasmussen will remain one year at Cape York and a year each at Hudson and Crown bays. He will also make an investigation of Baffin Land.

After this he will circumnavigate Alaska and will proceed to the Aleutian islands returning by way of San Francisco.

Thomas Reynolds Gets King's Medal

Ottawa.—A cable from Lord Crewe, secretary of state for the colonies, announces that his majesty has been pleased to confer the Albert medal of the first-class upon Conductor Thomas Reynolds for conspicuous bravery in rescuing passengers from the Spanish river railway wreck.

Will Request Asquith to Explain

London.—Dissatisfied with the attitude of Premier Asquith, the advanced Radicals of the party have decided to send a deputation to him to secure a definite explanation of his stand. The delegation is said to carry an ultimatum.

BIG IRRIGATION SCHEME

GIGANTIC PROJECT UNDERTAKEN BY THE C.P.R.

Twelve Million Dollars Will Be Expended in Extending Bow Valley Irrigation System.—The Western, Central and Eastern Sections Will Have Systems Extended—Will Give Employment to Many Men.

Calgary.—The announcement made by Mr. J. S. Dennis, Assistant to Second Vice-President of the Canadian Pacific railway, to the effect that the Irrigation department of that company will spend in the neighborhood of \$12,000,000 on the extension of their Bow Valley irrigation system, places Calgary in the enviable position of being the centre from which will be directed one of the largest construction projects on the continent. As the major portion of this money will be expended on labor, the result, within the next few years, to Calgary, will be an expansion and growth which has never been equalled by any other American city of like size.

The completion of the irrigation system for the central section, which will cost in the neighborhood of \$3,500,000, provides for the irrigation of 240,000 acres. This work entails the moving of 11,316,000 cubic yards of earth, and it will be necessary to use 4,800,000 feet of timber in the structures.

While the work to be undertaken in the central section is of itself sufficient to create an enormous demand for labor, it is reserved for the eastern section to absorb the larger portion of the \$12,000,000, the amount to be expended there being \$8,585,558. With a view to providing water for the 540,000 acres of land that the company's engineers find can be irrigated in the eastern section, it will be necessary to construct an entirely new irrigation system with dam and head gates, etc., located nine miles southwest of Bassano; at what is known as the Horse Shoe bend of the Bow.

It is estimated that the cost of the main canal, together with head gates, spillway, etc., will be \$1,593,930, and in order to complete the entire eastern section system it will be necessary to move the enormous total of 27,040,390 cubic yards of material. This then makes a total of 38,356,390 cubic yards of earth to be moved in the eastern and central sections, while the total for all three sections when the entire project has been completed will be 45,000,000 yards.

This giant task will be directly under the supervision of Mr. J. S. Dennis, Assistant to Second Vice-President of the Canadian Pacific railway, and he will have associated with him a large corps of the continent's most competent engineers, many of whom have been in the employ of the company since the inception of the work. These engineers will be placed in charge of the various branches. Engineering parties will take the field about April 1st.

A new field sales headquarters will be established at Tilley and this town, which today has only a name, will be laid out upon a model plan, permitting of its becoming one of the prettiest and best regulated towns in Alberta. Building restrictions will be enforced, with the result that the very finest class of structures will be erected. From this point will be sold large areas of irrigable and non-irrigable land which will shortly be placed on the market in the eastern section, and as the land selling campaign that the company has inaugurated is the most aggressive in its history, there is no doubt but that by the close of the year the major portion of this land will be sold. It is probable that Bassano will be headquarters for the sale of lands in the central section.

Back to Civilization

Prince Albert.—Barefooted, bare-headed and with very little clothing on his body, Bert Jenner, formerly known about the city as "Ginger," who for the last year has been living wild in the woods, walked to the city the other day while the thermometer was registering twenty below.

Jenner, who was reported to be demented about a year ago, disappeared at that time and nothing was heard of him until last summer when it was learned that he had been seen in the northern woods and had been shot at in mistake for a bear.

At that time he was living on berries and leaves. During the winter months he lived on fish and meat, and by his appearance he has been wintering well. His body is covered with long hair, his face is a mass of whiskers and his long red hair clusters down to near his shoulders. His feet and hands appear very tough, although his toes are slightly frozen.

Ginger is being shaved and dressed and has been given a job. He appears to be perfectly sane and says he has a faint recollection of his wanderings through the northern woods.

Bank Ice for Winnipeg

Banff, Alta.—The Arctic Ice company of Winnipeg have nearly finished their season's cut, which has been of splendid quality. During the busiest part of their three weeks' work they were loading 25 cars per day east, and they have taken the ice from about one mile of the Bow, getting blocks of about 30 inches in thickness. The exceptionally thick ice is due in a large measure to the fact that teams and scrapers are kept at work after every fall of snow during the early part of the winter, keeping the ice bare, which allows the frost to penetrate to a much greater depth than would otherwise be the case.

SHIPYARDS FOR MONTREAL

Canadian Government and British Firms Have Been Negotiating in the Matter

Ottawa.—Negotiations between the Canadian government and representatives of several of the famous shipbuilding firms, including Harland & Wolff, of Belfast, and Vickers, Sons & Maxim, for the establishment of Canadian shipyards and drydocks capable of constructing and repairing the largest ocean going vessels and of building the proposed new war vessels of the Canadian navy, has been under way for several months past. It is expected that an announcement will shortly be made that arrangements had been completed for the establishment by one or the other of these companies of a steel shipbuilding plant at Montreal or one of the Atlantic coast ports which will rival in capacity anything in North America.

By way of further encouraging the establishment of such an industry in Canada thus completing the scheme of Canadian naval defence the government will, it is understood, shortly bring down a bill increasing the present subsidy granted for the building of drydocks. It is now 3 per cent. per annum for 25 years, on a maximum expenditure of \$1,500,000. Parliament will be asked to make it 3½ per cent. per annum for 25 years, on a total expenditure of probably \$3,000,000.

A steel shipbuilding plant for the Pacific coast is also contemplated by a firm of Canadian capitalists at Victoria, B.C.

Japan Before Occident

New York.—"Japan is civilized; her gunpowder is just as good and her cannon are just as powerful as ours, therefore she is fully civilized." This is Mayor Gaynor's opinion of our far eastern neighbors, expressed at the dinner to Baron Uchida, Japanese ambassador here.

"There has been a notion in Europe that Japan and the other eastern nations are not civilized," continued Mayor Gaynor. "Why, the people of Japan were civilized when our ancestors were running naked in the woods and burrowing in holes for habitation. When the Arabs and Moors came to Spain there was not a damask or hanging curtain in Europe, and there was not a woman in Europe dressed in more than one garment."

"Japan is a great country. This is also a great country and the two, if they unite in peace and goodwill, may do much—very much—for each other and for humanity everywhere. Japan will let in a flood of light for this country, and it is possible that the United States may let in light upon Japan in return."

Prohibition Predicted for Dominion

Ottawa.—The Senate recently continued the debate on Senator Scott's bill to regulate the transportation of liquor, and Senator Somerville's amendment for a six months' hoist. Senator Cloran opposed the bill, on the grounds that it was a restriction of trade and commerce, and invaded individual liberty.

A spirited defense of the sobriety of the people of Prince Edward Island was made by Senator Yeo. While prohibition had not absolutely driven liquor from the province, it was on the whole, effective. Senator Baird predicted that prohibitive legislation would spread from the east until it covered all Canada. Senator G. W. Ross said the people of Prince Edward Island wanted this legislation and they should have it. To give the Government an opportunity of considering the application of the Prince Edward Island Legislature for this legislation, he moved the adjournment of the debate for a week. This motion was adopted.

Alberta Land Appeal

Ottawa, Ont.—In the supreme court a motion for special leave to appeal was made in the case of the Calgary & Edmonton Land Co. versus the attorney-general of Alberta. An Alberta statute declares certain lands liable to taxation for local improvements at a fixed rate per acre. The company has allotments of over 200,000 acres of unpatented lands on which this tax has been charged. Under statutory procedure a quantity of these lands were returned as in arrears for taxes and liable to be forfeited to the crown. On an application in chambers as provided under the Alberta act, Chief Justice Sifton declared the taxation valid. The full court affirmed his decision on an appeal. The questions to be decided are whether the matter originated in an inferior tribunal and whether special leave should be granted, if necessary, in a case of this nature on grounds of constitutionality or public interest. Judgment was reserved.

S. A. to Send Immigrants to Canada

Southampton.—A boom in embarkation to Canada has been started here under the auspices of the Salvation Army. It is announced that this organization has made arrangements whereby settlers for that country will sail every week from this port from now until April. Commissioners Coombs and Howard sailed on the Adriatic for a visit to Canada to look over the situation and make arrangements for the reception of the immigrants.

Record Catch of Halibut

Vancouver, B.C.—Showing that halibut on the northern British Columbia coast is anything but depleted, the steamer Kingfisher arrived with a catch of two hundred thousand pounds, taken in two day's fishing. This is a world's record.

AUDIENCE WITH KING

MAY BE A CHANGE IN POLICY OF THE GOVERNMENT

As a Result of Premier Asquith's Audience with the King, the Proposals for the Reconstruction of the House of Lords May Be Abandoned—Government may have Further Trouble with the Irish Faction.

London.—Interest in the political crisis centres in the premier's audience with the King and the prolonged cabinet council which are generally considered to herald a profound change in the policy of the government. It is authoritatively stated that the prime minister conveyed to His Majesty, and afterwards to his colleagues his belief in the impossibility of proceeding with the proposals for the reconstruction of the house of lords and in the necessity of concentrating all forces on the veto question.

Although several members of the cabinet strongly favor reconstruction, it is not believed that a split will result but the attitude of the extreme Radicals and Nationalists is disquieting. It was thought that the motion of Sir James H. Dalziel, the Radical, disapproving any government resolutions aiming at reform would be ruled out, but Sir James has submitted the motion to the speaker and secured the certainty of its discussion after slight alterations were made.

There are persistent rumors from Dublin that the government will be defeated. William O'Brien, in a published article, declares that John E. Redmond, leader of the Nationalists is disgusted to find that the O'Brien's views on the budget were right, now decided to seize an earlier opportunity than that which the budget affords of ending the government's existence. There is a possibility that the cabinet may be defeated by a combination of the Radicals. The idea of the government retaining officially the help of the Conservatives is repugnant to all sections among the Liberals.

The Labor party decided not to oppose Sir Albert Pease whose promotion from the ministry necessitated his reelection in Northam. Division of the laborites was due to the ministers to provide a candidate.

C.P.R. Telegraph Extension

Calgary.—During the year 1909, a large amount of extension work was done by the C.P.R. telegraph department. Among the different works undertaken were:

The stringing of a new copper wire from Broadview to Calgary.

A new copper wire from Calgary to Fort Steele, B.C.

A despatching wire from Swift Current to Medicine Hat.

The extension of the line from Stettler 35 miles east of Castor and from Hardisty 50 miles east.

This work was exclusive of the overhauling and repairing of hundreds of miles of existing lines.

During the year 1910 the amount of new work projected will be exceptionally heavy. This will include a new copper wire from Broadview to Field. At the present time there are employed in the Calgary office four chief operators and thirty-three operators, making a staff of thirty-seven men.

During the year 1909, the business of the Calgary office increased more than 25 per cent over that of 1908.

Y.M.C.A. in the West is Flourishing

Winnipeg.—From all indications 1910 will be the most prosperous year in the growth of the Y.M.C.A.

Between Port Arthur and Victoria, within the next sixty days, the building company will have concluded the following buildings: At Port Arthur \$25,000; at Lethbridge \$45,000; at New Westminster \$30,000.

These amounts will provide modern buildings with sufficient revenues to make the institutions self-supporting.

Plans are completed for the new \$100,000 building to be erected at Victoria. The new Calgary building when completed, will cost \$110,000.

Between Port Arthur and Winnipeg, the Y.M.C.A. holds property to the extent of \$1,000,000.

The regular work of the Y.M.C.A. is being strengthened at various points throughout the west.

Medicine Hat Pleased

Medicine Hat.—J. W. Martin, inspector of the Dominion land office, received word from Ottawa authorizing him to establish a central land office here to be opened April 1. The new district includes part of southeastern Alberta and southwestern Saskatchewan, and combines townships 1 to 25 inclusive in ranges 25 to 30 inclusive west of the third meridian, and townships 1 to 23 inclusive, ranges 1 to 10 inclusive west of the fourth meridian, taking in part of Lethbridge and Moose Jaw districts. This is good news for this district.

Globe Editor Wins Out in Libel Suit

Toronto.—The jury in the libel suit of Hon. G. E. Foster, returned a verdict in favor of the defendant J. A. MacDonald, editor of the Globe. The jury found that in view of the circumstances Mr. MacDonald was justified in making the statements he did and that while Mr. Foster was acting in good faith as manager of the Union Trust Co. his actions were open to criticism and therefore he was not entitled to recover damages. Mr. Justice Magee elected judgment for the defendant, but allowed the usual thirty days which to enter an appeal.

Carbon.

Mr. Sam Wigmore, of the Red Deer river ferry was in town today and wishes to inform the readers of the Journal, that he does not need to come to Carbon when he wants a drink, that he has a good well and an never failing spring on his homestead, and if the people of Carbon wishes to quench their thirst to call on Mr. Wigmore and get a cool refreshing drink of the purest water, and it would be of more benefit to them than the bugjuice they get in Carbon.

It has been rumored that Mr. T. Ramsey is about to leave the blissful fields of bachelorhood, and embark upon the troubled waters of matrimony. The happy event is expected to take place at Crossfield on the 9th inst. We extend to him and his bride to be, a long and happy wedded life.

What might have proved a most serious accident occurred at Mr. V. Tricker's recently. Mr. Tricker had been digging a well at his homestead and had been using some blasting powder. A quantity of this powder had been sitting on a corner of the table in a paper sack. As he was getting breakfast and after lighting his pipe and laying the still burning match on the table, he proceeded to wipe the table off and brushed the match into the powder, the usual explosion followed, blowing part of the roof and walls of the shack, but Mr. Tricker, we are glad to hear escaped unhurt.

Our new restaurant will be opened by a grand ball and oyster supper on March 11th, everything free except the oysters which will be the small sum of 35c. If the evening should prove fine, there will no doubt be a large crowd in attendance. Those wishing to have a real good treat of oysters should come early and avoid the rush.

A small skirmish took place in Carbon to-day between the whites and blacks. The honors being almost even. The black thinking himself outclassed, tried to bring to his assistance a two by six, sixteen feet long, but the referee decided that there was no room in the building to use such defence, and ruled him out.

Wimbome

S Jardine of Wimbome was unable to take the services at his appointment Sunday, Mr Rice supplied for him.

Elmer and Nelson Harris were visitors at the home of their brother, Ed Harris, on Sunday.

Mr O'Brien of Saskatoon was through this part of the country this week, buying horses for shipping. He bought some of Mr Larkin's fine bunch.

S Jardine made a trip to Innisfail this week.

Butter is still keeping up to twenty five cents a pound at the Wimbome general store.

Mr and Mrs Holdsworth and family spent Sunday with Mrs Jas Scott of Curlew.

Mr Pearce and Mrs Poole of Curlew visited Wimbome Wednesday.

Wimbome district is getting prosperous. People are selling their smaller teams and buying larger ones. There are still some horses to sell around here before spring.

SPRUCE COULEE.

Mr Morgan was a pleasant caller at S Boffie's last Tuesday.

Mrs Wm Hawkins and her son Stanley were pleasant callers at Mayton store Wednesday.

Jack Allen was a very pleasant visitor at Wm Hawkins last Thursday evening.

Willie Hawkins is getting the ice up for the Spruce Coulee ice house.
